Creature Creation

Student Learning Outcomes:
- T.S.W. Explore a variety of medieval and mythological creatures.
- T.S.W. Create a fictitious creature using Photoshop tools and Google Images.
- T.S.W. Describe, analyze, interpret, and judge their artwork upon completion using the language of art.

Project Procedures:
1. Save 4 images to your "In Progress" folder (Background image and at least three different animals). ***Make sure these images are labeled for reuse with modification.**
2. Crop and erase your animals so that one feature is left present (magnetic lasso tool, eraser tool, etc.)
3. Combine those features using photoshop tools (move tool, free transform, clone stamp, smudge tool, etc.).

Grading Criteria: *See general grading rubric.
